

WINDSOR UNIFIED SCHOOL DISTRICT

TO: Bill Adams, Board President

FROM: Lisa Saxon, Director of Educational Services

DATE: August 7, 2018

ITEM: **UPDATE: ADMINISTRATIVE REGULATION (AR) 3541 (a)-
TRANSPORTATION ROUTES AND SERVICES**

BACKGROUND INFORMATION:

The District has been trying to address the continuing driver shortage the District has been facing, which has contributed to students being brought to school late due to the need to consolidate routes when drivers are not available.

On 6/26/18, the Board reviewed existing AR 3541(a), as well as proposed increases for the minimum distance required between students' school-established bus stops and their respective schools.

CURRENT CONSIDERATION:

Instead of increasing the minimum distance required between students' school-established bus stops and their respective schools, the transportation department is now working on a route consolidation plan that creates hubs at each of the school sites. The proposal will be shared at a later date.

RECOMMENDATION:

None at this time.

ATTACHMENTS:

No.
